

# POG-HR-AI

## Characteristics

Theoretical data

### Specification

R(abs) spec. wavelength > 90%

R(avg) 400-700nm > 85%

AOI: 0...45°

### Substrate

optical glass

### Description/Application

Metallic front surface mirror with protection layer – the protective layer can be adjusted to a specified wave length.

### Durability

Adhesion Mil-C 48497A 4.5.3.1

Moderate abrasion Mil-M 13508C 4.4.5

Temperature Mil-M 13508C 4.4.4
