

POG-HRA-VISO

Characteristics

Theoretical data

Specification

R(abs) > 90 % @ spec. Wavelength
 R(ave) > 85 % @ 400...700 nm
 AOI = 0-15°

Substrate

Optical glasses, fused silica

Description/ Application

Metallic front surface mirror with protection layer – the protective layer can be adjusted to a specified wavelength.

Durability

Adhesion	Mil-C 48497A 4.5.3.1
Temperature	Mil-M 13508C 4.4.4
